Parish Council News

Neighbourhood Development Plan

The Neighbourhood Development Plan Working Group would like to thank those residents who completed and returned the household questionnaire. There was a 35% return, which will provide statistically valid data.

The information in the returns is being input into computers for analysis. We will provide details of the responses in a future issue of *On The Rode*.

The Working Group is supported by a Planner, Lucy Hughes, from Cheshire Community Action and will be receiving an independent Landscape & Settlement Character Assessment from consultants in the near future.

Alsager & District In The Second World War

Alsager branch of the Royal British Legion is publishing a book which tells the story of local communities, including those in Odd Rode, during WWII. It includes biographical details of local service men & women and will form a permanent record of the fallen.

The Parish Council is one of the book's sponsors, as it is keen to preserve local history and honour those who sacrificed their tomorrow for our today.

Vacancies for councillors

There are two vacancies for parish councillors caused by resignations (2 in Scholar Green). If you are interested, please contact the Parish Office (details on back page).

Christmas Trees

The Parish Council has arranged for Christmas Trees to be erected at the usual sites: Mount Pleasant Village Green, the grass triangle at the end of Station Road, Scholar Green, and the grassed

area adjacent to Sandbach Road, Rode Heath. They will be erected by Friday 1st December, in time for carols around the tree in Rode Heath on Saturday 2nd December at 6 pm (followed by refreshments in the Rhema Mission Church) and the light switch on at Scholar Green at 4 pm on Sun 3rd Dec (see page 6). Mount Pleasant's carols around the tree will be at 4pm on Sun 10th Dec and there will be refreshments. All welcome to any, or all, of the events.

Winter Garden Waste Collections

The garden waste collection service will be suspended on Sunday 3rd December 2017 and will resume the week beginning Sunday 11th February 2018. As garden bins are collected every fortnight, please check the online calendar for your collection for 2017 and your first collection of 2018.

Please recycle your Christmas tree at a local household recycling centre or in your garden waste bin (cut up larger trees so that the lid

still closes - CEC are unable to collect trees that are not in a closed bin).
